NPrinting

YOUR NEW PARTNER

IMPROVE PERFORMANCE.

NPrinting is the most advanced report generation, distribution and scheduling application for QlikView on the market. It lets you quickly create and modify reports, generate and filter them based on updated data and distribute them to whom and when you need to. Get the right information to the right people at the right time.

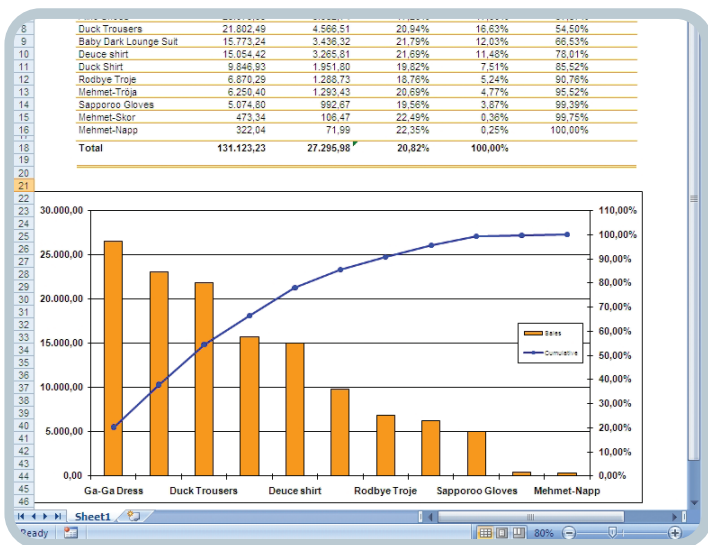

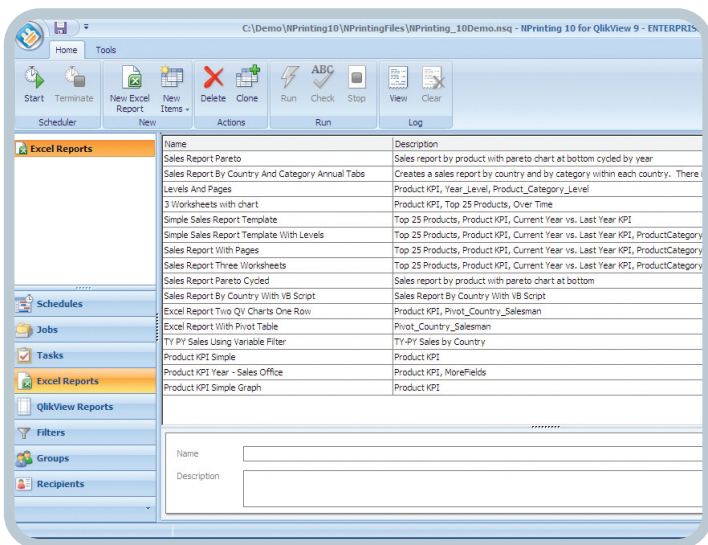

FROM ANALYSIS TO ACTION IN A SINGLE CLICK.

Rapidly develop and implement scalable reporting solutions. Create reports from QlikView data in Excel or PDF formats with drag and drop simplicity. Our intuitive interface will get you up and running in hours. You can develop an Enterprise report scheduling and distribution program in a few days.

TIMELY INFORMATION TO THE RIGHT PEOPLE.

NPrinting allows you to send user appropriate information to users on an ad-hoc and scheduled basis. Because users are associated with their specific filters, e-mail addresses and directories, you always distribute the appropriate information through the appropriate channel at the appropriate time. You can also encrypt reports using public key infrastructure.

You can use NPrinting to schedule data reloads, create and distribute user filtered reports in PDF or Excel formats without the need for macros.

LEVERAGE THE VALUE OF EXISTING ASSETS.

Distribute existing QlikView reports in PDF format to take advantage of the work you've already done in QlikView. Create reports in Excel templates to use existing Excel skills in your organization and create professional output to distribute in Excel or PDF formats. Import and update user lists from LDAP or Excel and text files or databases. When importing users you can also import user filters simplifying user management and maintenance. Import existing QlikView bookmarks to use as filters in **NPrinting**. Run QlikView macros.

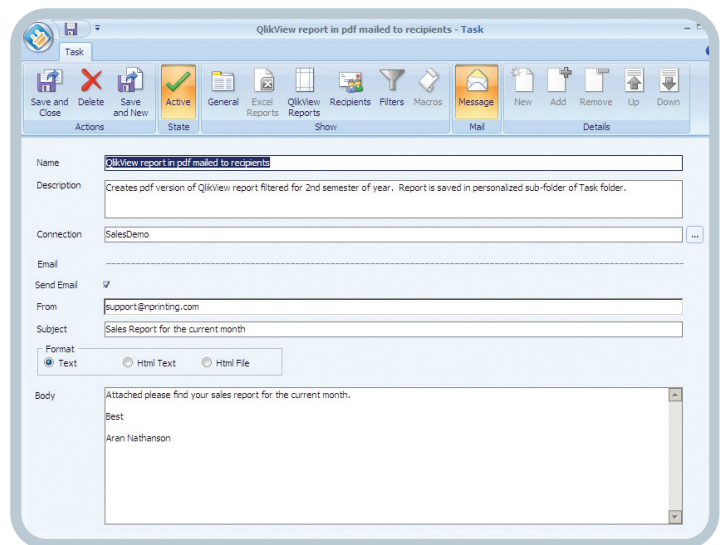

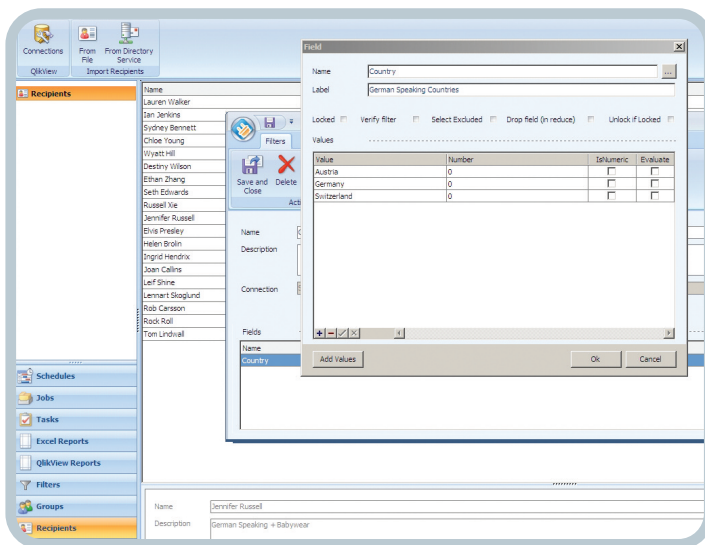

YOUR SUCCESS IS OUR MISSION.

NPrinting is architected, coded and sold by Syntes. Our team has been designing and developing business intelligence solutions for over 15 years. Because we know that our users are facing the continuous challenge of meeting ever more demanding needs in the face of a massive increase in information available, we continue to add features and build stability into all of our products. Road tested by over 1000 users, **NPrinting** is the solution for enterprise report creation and distribution.
